

# RP400 Pro ALLP Descender

## Data Sheet

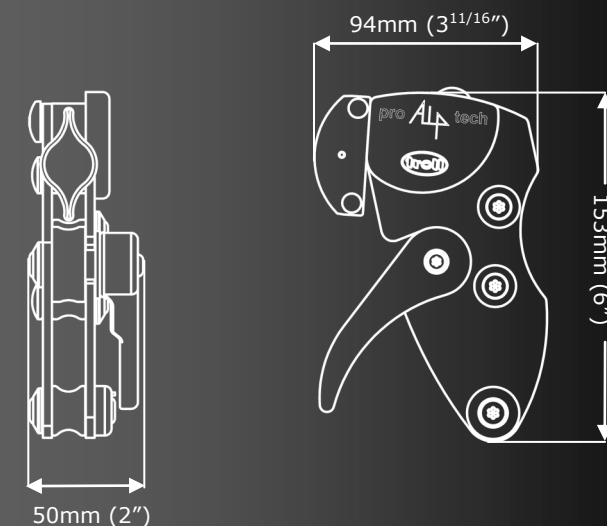

climb. work. rescue.

# I|S|C

SOLUTIONS IN METAL

The Pro ALLP gives the user the option of standard lever-controlled descent, or screw-controlled descent adjustment. The screw control allows for precise adjustment and can also be used in 'Auto-lock' mode. Once the desired speed of descent has been achieved, the Auto-lock function can be activated, putting the Descender in to 'cruise control'.

<b>Weight</b>	573g (20oz)
